

Level 1 Generic and Level 2 Medication List

1/12/12

The medications listed in blue are available at the Level 1 copayment (the lowest cost sharing amount) and the medications listed in black are available at the Level 2 copayment. Not all generic medications are listed in this Guide. The Level 2 Medication List includes the specific medications available at the Level 2 copayment. For example, if Adderall XR is listed, but Adderall is not, Adderall may only be available at Level 3 or Level 4. The medications followed by “PL” have Prescription Limitations as stated in your benefit plan booklet. To learn more about Prescription Limitations, please [click here](#).
