PHARMACY COVERAGE GUIDELINES	**ORIGINAL EFFECTIVE DATE: 3/15/18**
SECTION: DRUGS	**LAST REVIEW DATE: 2/21/19**
	LAST CRITERIA REVISION DATE: 2/21/19
	ARCHIVE DATE:

CARAC® (fluorouracil) and FLUOROURACIL cream 0.5%
EFUDEX® (fluorouracil) cream 5%
FLUOROPLEX® (fluorouracil) cream 1%

Coverage for services, procedures, medical devices and drugs are dependent upon benefit eligibility as outlined in the member's specific benefit plan. This Pharmacy Coverage Guideline must be read in its entirety to determine coverage eligibility, if any.

This Pharmacy Coverage Guideline provides information related to coverage determinations only and does not imply that a service or treatment is clinically appropriate or inappropriate. The provider and the member are responsible for all decisions regarding the appropriateness of care. Providers should provide BCBSAZ complete medical rationale when requesting any exceptions to these guidelines.

The section identified as "Description" defines or describes a service, procedure, medical device or drug and is in no way intended as a statement of medical necessity and/or coverage.

The section identified as "Criteria" defines criteria to determine whether a service, procedure, medical device or drug is considered medically necessary or experimental or investigational.

State or federal mandates, e.g., FEP program, may dictate that any drug, device or biological product approved by the U.S. Food and Drug Administration (FDA) may not be considered experimental or investigational and thus the drug, device or biological product may be assessed only on the basis of medical necessity.

Pharmacy Coverage Guidelines are subject to change as new information becomes available.

For purposes of this Pharmacy Coverage Guideline, the terms "experimental" and "investigational" are considered to be interchangeable.

This Pharmacy Coverage Guideline does not apply to FEP or other states' Blues Plans.

Information about medications that require precertification is available at www.azblue.com/pharmacy.

Some large (100+) benefit plan groups may customize certain benefits, including adding or deleting precertification requirements.

All applicable benefit plan provisions apply, e.g., waiting periods, limitations, exclusions, waivers and benefit maximums.

Precertification for medication(s) or product(s) indicated in this guideline requires completion of the request form in its entirety with the chart notes as documentation. All requested data must be provided. Once completed the form must be signed by the prescribing provider and faxed back to BCBSAZ Pharmacy Management at (602) 864-3126 or emailed to Pharmacyprecert@azblue.com. **Incomplete forms or forms without the chart notes will be returned.**

CARAC® (fluorouracil) and FLUOROURACIL cream 0.5%
EFUDEX® (fluorouracil) cream 5%
FLUOROPLEX® (fluorouracil) cream 1% (cont.)

Criteria:

- **Criteria for initial therapy: Carac (fluorouracil) 0.5% cream and Fluorouracil 0.5% cream, Efudex (fluorouracil) 5% cream, and Fluoroplex (fluorouracil) 1% cream** is considered ***medically necessary*** and will be approved when **ALL** of the following criteria are met:

  1. Prescriber is a Dermatologist

  2. Individual is 18 years of age or older

  3. A confirmed diagnosis of **ONE** of the following:
     - Multiple actinic (solar) keratoses
     - For Efudex 5% cream: Superficial basal cell carcinomas when conventional methods are impractical (eg, due to multiple lesions or difficult treatment sites)

  4. **For Actinic keratosis:** Individual has failure, contraindication or intolerance to **BOTH** Tolak 4% cream and 2% fluorouracil solution
     For Superficial basal cell carcinomas: Individual has failure, contraindication or intolerance to generic fluorouracil cream 5%

  5. There are **NO** contraindications.
     - Contraindications include:
       - Hypersensitivity to fluorouracil or any component of the formulation
       - Dihydropyrimidine dehydrogenase (DPD) enzyme deficiency
       - Women who are or may become pregnant

  Initial approval duration: 2 months

- **Criteria for continuation of coverage (renewal request):** Carac (fluorouracil) 0.5% cream and Fluorouracil 0.5% cream, Efudex (fluorouracil) 5% cream, and Fluoroplex (fluorouracil) 1% cream is considered ***medically necessary*** and will be approved when **ALL** of the following criteria are met:

  1. Individual continues to be seen by a Dermatologist

  2. The indication for use is one that requires a longer duration as patient has not reached the erosion stage or additional dosage due to high number of lesions

  3. 1-2 months has passed since the last treatment with fluorouracil therapy as complete healing takes that much time

  4. Individual has been adherent with the medication

CARAC® (fluorouracil) and FLUOROURACIL cream 0.5%
EFUDEX® (fluorouracil) cream 5%
FLUOROPLEX® (fluorouracil) cream 1% (cont.)

5. Individual has not developed any contraindications or other significant level 4 adverse drug effects that may exclude continued use
    - Contraindications or adverse effect:
        - Signs and symptoms may include:
        - Bloody diarrhea, stomatitis, severe abdominal pain, vomiting etc. indicating dihydropyrimidine dehydrogenase deficiency (DPD) enzyme deficiency

6. There are no significant interacting drugs

Renewal duration: 3 months
